MURPHY'S LAW: THE LIGHTER SIDE OF LIFE ☺

By Victor Sy, CPA, MBA

Our newsletter usually focuses on serious (and sometimes boring, sometimes scary) subjects of tax and finance. Let's depart from that and explore the lighter world of Murphy's Law:

1. If something can go wrong, it will at the worst possible time.
2. Friends come and go, but enemies accumulate.
3. Brain cells come and brain cells go, but fat cells live forever.
4. The fastest lane on the freeway screeches down to a halt as soon as you move to it.
5. That darn stuck elevator moves - as soon as you head for the stairs.
6. You will find it in the last place you look at, right at the bottom of the pile.
7. The item that has taken you so long to buy goes on sale right after you buy it.
8. A \$3,000 computer will blow first to protect a 10¢ fuse.
9. If a computer software rejects all bad inputs, an ingenious idiot would discover a way to accept it.
10. In any company, each worker rises to a level of incompetence. And remains there.
11. It works better if you plug it in.
12. When in doubt, mumble. When in trouble, delegate.
13. The lights at the end of the tunnel are the headlights of an oncoming train.
14. Beauty is skin deep, ugly goes *kilig* right to the bones.
15. Anything good is either illegal or fattening.
16. If you circumvent what could go wrong in four different ways, a fifth way promptly develops.
17. If everything seems to be going well, you have obviously overlooked something.
18. Anything that begins well ends badly; anything that begins badlyends worse.
19. Left to themselves, things tend to go from bad to worse.
20. And after things have gone from bad to worse, the cycle repeats itself.
21. If at first you don't succeed STOP! ☺
